

CALGARY

The intent of these guidelines is to ensure that the acoustic environment is conducive to teaching, learning, administrative work and is compatible with the needs and comfort of students, faculty and staff.

4.2.3 Classrooms/Computer Labs/Lecture Halls

4.2.6 Washrooms

Provide a double plumbing wall between washrooms and instruction space. Ensure structural separation is maintained and piping is attached ONLY to washroom side of the double wall.

Where washroom doors are not provided, provide sound absorption materials to walls (minimum NRC 0.85) and indirect view lines at entry.

4.2.7 Mechanical Considerations

Design Standards
